DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention: Species I, referring to Figs. 1 and 3D; Species II, referring to Fig. 2; Species III, referring to Fig. 3A; Species IV, referring to Fig. 3B; Species V, referring to Fig. 10B; Species VI, referring to Fig. 11; Species VII, referring to Figs. 12-14; Species VIII, referring to Figs. 16A-16C; Species IX, referring to Figs. 17A-17C; Species X, referring to Figs. 20B-20D; Species XI, referring to Figs 20E-20F; and Species XII, referring to Figs. 21A-21E.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Upon the election of Species X a further election of Sub-species is required.

Sub-species A, referring to Fig. 20B; Sub-species B, referring to Fig. 20C; Sub-species C, referring to Fig. 20D.

Upon the election of Species XI a further election of Sub-species is required.

Sub-species A, referring to Fig. 20E; Sub-species B, referring to Fig. 20F.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the

Art Unit: 3738

limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to James M. Heslin on December 13, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin J. Stewart whose telephone number is 571-272-4760. The examiner can normally be reached on Monday-Friday 7:00AM-5:30PM(1 Friday B-week off).
